

Black Coffee

Well, I do not drink much alcohol, I do not snort cocaine.
Nicotine, well that's just obscene, but I do like caffeine.
Black coffee in the morning, some more in the afternoon,
I might drink some after midnight and go howling at the moon.

Black coffee. Black coffee.
I got a long dark train running through my veins,
Bringing caffeine to my brain.
Caffeine to my brain.

Don't bring me some damn demitasse, just please fill up my mug.
I could drink it by the growler if you'll just fill up this jug.
And please no cream and sugar, and please no herbal tea.
Black coffee that's my drink of choice, but it does make me pee.

I like the way I get things done, I like that thing it does.
It makes me kind of edgy, yeah, but I do like that buzz.
Yeah, I do not drink much alcohol, I do not snort cocaine [any more],
Nicotine is just obscene, but I do like caffeine.
